

HOW TO JAILBREAK FIRESTICK

Set up your Firestick as per instructions on screen.

1. Go to the home screen of your Amazon Fire TV Stick.

Note: depending on your Fire TV OS version, your home screen may appear a little different.

2. Select **Find** in the middle bar followed by **Search**.

On the search window, type the name of the app, Downloader.
Click Downloader in the search suggestions.

D	ownloader Ap	р					
D	ownton Abbey	/ Movie					
D	ownloader Ap	n For Fire S	tick				

4. Click the **Downloader** icon on the next screen.

5. Choose **Download** (or **Get**) on the window that appears next.

6. Wait for the Downloader app to download and then install. Then click **Open** to launch the Downloader app.

- 7. Dismiss any prompts that are displayed when you use the Downloader app for the first time. But if it asks you to give it any permissions, make sure you Allow them all. Go back out of Downloader app and back to the home screen.
- 8. Select the gear or cog icon in the middle bar (on the far right) to open **Settings**.

9. Now, choose the option **My Fire TV**.

 On the following window, click Developer options. (Note: If you don't see Developer options, go back to Settings > My Fire TV > About. Now, select Fire TV Stick and click it 7 times to enable Developer options).

Go back to the previous window and you will see **Developer options** now.
